

Vorlesungsbeschreibung International Business-to-Business Marketing and Branding

Lernergebnisse

Upon completion of the module, students will be familiar with the special features of business-to-business marketing, also with regard to the increasing importance of digital transformation processes. Skills are acquired to develop implications for the design of the marketing and sales strategy. In addition, students learn the importance and implementation of customer relationship management tools in marketing practice. Students also know how to systematically analyse business markets in order to select relevant markets and develop positioning strategies.

Inhalte

- Fundamentals and basic terminology of business-to-business marketing
- Buying patterns of organisations
- Management of digital transformation processes
- Design and management of sales systems
- Customer relationship management and CRM
